## **BabyDeFido, Kennel of Memecoins**

BabyDeFido was born **October 17th 2021**. BabyDeFido represents crypto's best friend, and we predict they will soon focus more on him. Join crypto's cutest bulldog journey in crypto's bull market! The season of the Doge coins is once more here! Make sure you don't miss out this time around! Doge and Shiba are overpumped and not nearly as sweet, so we bring you a coin that you can get in on the floor level.

## **Tokenomics**

Token economics for BabyDeFido are very straightforward. A total of 10% tax is charged for every buy and sell. Tax is divided between marketing (**4%**), liquidity (**2%**), reflections (**2%**) and operations (**2%**). Take note that the team may occasionally modify tokenomics in order to find balance.

## **People Behind BabyDeFido**

BabyDeFido was started by a group of friends who met each other through errors of life and drive to make the BSC space a better place. They are here to stay.

# ROADMAP

## **Phase 1: Conception**

Developing and deploying token smart contract is the heart of all projects. Same story for us. We moved on creating and showing our social media presence. We also built and launched our website including custom graphics and a chart with our very own API behind it. We were also audited by Dessert Finance. In order to gain more trust we are working hard to get our BSCScan socials updated.

## **Phase 2: Birth**

We held 25 BNB private sale among the core members of our team. Also launched a few campaigns for presale whitelist spots. Presale is taking place on 17th October at 19 UTC on Pinksale. Presale soft cap is 75 BNB and hard cap 150 BNB. PancakeSwap listing will happen shortly after successful presale. After the PancakeSwap launch we are starting to push hard in different directions in marketing.

## **Phase 3: Expansion**

We are doing our best to get listed on the most trusted listing sites in the cryptocurrency space. CoinGecko and CoinMarketCap listings will be fast-track as soon as possible. We are also chasing after Coinbase price listing.

## **Phase 4: Leading**

Once we are a household name in the BSC space we are expanding and leading the way for meme coins to build an Ethereum Bridge and soon after that Fantom Bridge. We will also start supporting staking and looking into bridges to more networks. To celebrate our successful existence we will throw a big community party somewhere in the world.
